When playing an absentee bowler – you are either playing your own blind score (average less 10) or your opponents average – whichever is lower. If a player withdraws from the league, they will remain in the league (except via league vote) and be treated as an absent for the remainder of the season. Prebowling (and limited postbowling in emergencies) should be completed on the league pattern only. This will require pre-booking by Friday evening for Sunday Mornings. If you pre-book, you are welcome to practice on the patterns on Sunday Mornings also.

You may be required to share your pair with other bowlers.

***In limited circumstances, other nights – ideally Tuesday Nights may be available for Pre-bowling. Please ensure Chris Haynes and your opponents know that you wish to prebowl before the league night.

Emergency Prebowling: Emergency pre-bowls can be completed on Sunday mornings and can be used if you are absent/called away whilst we are bowling on the pattern.

We would like the league to be inclusive and help develop and grow your game – Any/All suggestions are welcomed!
